on 18<sup>th</sup> of July 2020 music club of NEISSR organised a musical talent show where every individual can take part in it. Before starting the programme miss Ongla gave an instruction about the day activity.

Most people have barely understood or noticed that love and music have a very subtle connection. When an individual is in the deep state of love, music from within arises that instigate him/her to sing and dance heart out.

But it's always nice to be reminded of the great things our favourite musicians and songwriters have said about their own music, and we hope you enjoy these quotes too! 91. "Music is like a dream. One that I cannot hear." 92. "If I were not a physicist, I would probably be a musician. I often think in music. I live my daydreams in music.

*"Music is the great uniter. An incredible force. Something that people who differ on everything and anything else can have in common." Sarah Dessert.*

Short message on the importance of music in life by Daiguang Riamei

### How Can Music Impact Your Life?

There are a few aspects on how music can impact your life. In other words, music can directly affect important traits in human beings. We want to highlight exactly what those aspects are and show you why music matters.

### Music Allows Us to Be Creative

SEP 2019 One of the most important things in life is creativity. Using your imagination brings out better ideas and more of your personality. Therefore, you become a better version of yourself. Great ideas are created from sparks of energy, passion and wanting to make the world a better

place. In conclusion, you can always work on improving your mind and music gives you the opportunity to do that.

### **It Can Help Change Your Mood**

You know those times (we all have them) when you're in a bad mood? Scientific studies have shown that music helps change your mood from feeling bad to feeling great! Whether you choose to believe it or not, the beautiful sounds of music that are in harmony with you has an impact on your daily actions, thoughts and behaviour. Positive energy is what we are all after and music will help you get in the right mindset to attack your day. The trick is finding the right type of music for you.

### **Music Boosts Productivity**

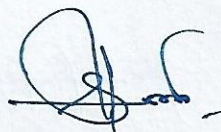

What would the world today be without productive people? All of the useful inventions that help make our lives easier were all developed by people with creative minds. Creativity is a higher mental faculty that we all possess, but not all of us choose to use it to its full potential. We all get stuck on specific pieces of the project. Sometimes you'll need an extra boost, or inspiration. You have a great opportunity to start boosting your productivity next time by turning on the music.

### **Music Makes Learning More Enjoyable**

We're all students of life and always chasing after more information to help us become more successful and master our craft. Sometimes the information we seek can be boring. That all changes when you turn up the volume and pump the jams of your favorite genres. You can feel more energised and focused. Therefore, you'll be able to enjoy learning a little bit more thanks to music.

### **Music Makes the World Go Around**

There lies a power in Music that can help change the world. We all witnessed it and it continues to prove itself over and over again. Whether you play a musical instrument and create music, or you just like to listen to it, music is and always will be extremely important in our lives.

On 21<sup>st</sup> of June 2018 world music day, the students of NEISSR music club organised a programme at NEISSR hall where every club member participate in various activities.

The music club conducted solo competition as well as group song competition and musical talent show, before the programme start the convenor of music club Ratolu gave a brief introduction about world music day

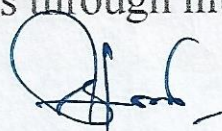

World Music Day is celebrated on June 21 every year to honour the musicians and singers for the gift of music, which gives flight to the imagination and life to everything. A world without music would have no meaning to many and World Music Day is observed to celebrate the power of this art.

Also known as F<sup>a</sup>te de la Musique, it is celebrated for motivating budding, young and professional musicians to perform. More than 120 countries celebrate World Music Day and organise free public concerts in parks, stadiums and public places. Music lovers organise different musical concerts and events on this special day.

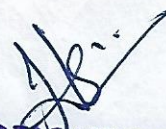

### **History and significance**

The birth of the world music day dates back to 1982. Maurice Fleuret, the then Director of Music and Dance at the French Ministry of Culture, decided to start the Music day to bring people out on the street. Since that day, it is being observed around the world with large-scale concerts to intimate performances on June 21.

On the occasion of World Music Day, here are some quotes that you can share with your loved ones: "If I were not a physicist, I would probably be a musician. I often think about music. I live my daydreams through music. I see my life in
