

## REMEDIAL CLASS

Remedial class is designated for students who are experiencing academic challenges and have notably low attendance. It aims to provide additional support and assistance to help these students improve their academic performance. The initiative is undertaken with the intention of fostering a collaborative learning environment, wherein peers actively engage in teaching and learning to assist their struggling classmates.

Remedial class serves as a platform where students can come together to address educational gaps. It is structured to create a supportive atmosphere, allowing those who excel in certain subjects to share their knowledge and expertise with their peers who may be struggling. The essence of the remedial class lies in the mutual support and understanding among classmates. By pooling their strengths and working collectively, students aim to uplift one another academically, bridging the gaps in knowledge and understanding. This approach not only fosters a sense of camaraderie but also encourages a positive and inclusive learning environment, reinforcing the idea that education is a shared journey where each individual's success contributes to the collective progress of the entire class.
